Our Team - See who we are & Click on our Name to send us an email

NACS Credit Services, Inc. has been around the Kansas City metropolitan area since the early 1900's. Our structure and name have changed over time but our mission to provide the required credit navigational tools to give our members the ability to make informed and timely credit decisions has stayed the same. To promote the exchange of factual credit information in such a manner of adhering to all the Antitrust and Competition Acts.

NACS is committed to helping reduce the cost of credit and maximize profits. We are continually developing services to reduce the two major expenses that every credit grantor faces, accounts receivable slowness and bad debt. By implementing our services within your business, you will navigate your company toward making better credit decisions.
